

APPLICATION NOTE 828

## LED Manufacturers' Web Sites

*Abstract: The links below take you to world-wide LED manufacturers who maintain English-language websites and product data. Inclusion on this list is not an endorsement from Maxim.*

*This list will assist engineers who are choosing LEDs to accompany Maxim's LED display drivers and LED backlight drivers.*

*LED manufacturers are welcome to request to be included in this list by using the FEEDBACK link below. Please note that Maxim will only list manufacturers who actually build discrete packaged LEDs or LED segment/matrix displays comprising multiple LED dice. Maxim will not include LED distributors or value-added manufacturers who build LED products from LEDs manufactured by others.*

Also see: [Display Drivers and Display Power](#)
